WAYS WE HELP

The goal of MCBDD is to help a person with a disability get the services they need to live, learn, and earn.

Our Service and Support Administrators or SSAs work closely with those served, their caregivers, loved ones, and providers to make them aware of their choices and resources.

The team works together

- to meet with those served on a consistent basis
- to make sure all of the services needed are in place
- and ensure those served are happy with the service providers that are in place
